1.  Comment. Please note that the 4th column of figures represents the planned consumption of coke, in kilograms, needed to produce one ton of pig iron, while the final column represents the actual consumption, in kilograms, per ton of pig iron produced.

3.  Comment. The figures for the Dzierzynski Foundry are not listed immediately after the names of the other nine foundries, but are given separately because the other foundries come under the CZPH, whereas the Dzierzynski Foundry belongs to the CZPSS.
